### **Employment History**

#### ***The David Allen Company***

##### **Webmaster**

**July 2007 – February 2009**

- Translate business needs and customer requests into discrete projects for development staff
- Prioritize developer projects based on company goals and customer impact
- Provide staff support and next level customer support for all web requests, including e-commerce (xCart), blogs (Wordpress and Movable Type), multimedia, and podcasting
- Code and send weekly HTML emails to several subscription based mailing lists, managing input and direction from marketing and design departments
- Implement Photoshop based designs as lightweight, standards compliant sites and features
- Prepare and provide recording support for semimonthly, downloadable audio content

##### **Key Projects**

- Development, administration, and maintenance of GTD Summit promotional site using Drupal
- Development, administration, and maintenance of GTD Times blog using Wordpress
- Coordination and development of forthcoming site redesign in Drupal

#### ***Pepperdine University School of Law***

##### **Web Services Manager**

**September, 2001 – July 2007**

- Administration, direction, and maintenance of nearly 4000 pages of unique content comprising the law school web site as well as law school presence on the university portal
- Champion law school interests in web and portal development committees
- Manage content and user interfaces for university's PeopleSoft portal implementation
- Select and purchase third party web applications
- Provide supervision for part-time student employees

##### **Key Projects**

- Creation of scripting in Java to dynamically generate site navigation using XSLT
- Implementation and management of hosted, enterprise level Content Management System
- Extensive JSP development, including web-based admissions application, financial aid application, and jobs placement
- Coordinated two complete site redesigns (technical aspects as well as content architecture)

#### ***Homestore.com***

##### **Associate Producer**

**February, 2000 – July, 2001**

- Technical management of Home Improvement and Food & Recipes channels
- Coordinated with engineering department, design department, and management to rollout several visual and structural redesigns
- Worked closely with editors to publish fresh weekly content
- Primary content provider for AOL's Home Improvement Channel

#### ***Guitar Center***

##### **Web Technician**

**August, 1998 – February, 2000**

---
